## **New DFB Academy Frankfurt Laying of the foundation stone**

Project outline new building DFB Academy Frankfurt:

Use:	Administration and sports academy
Location:	Frankfurt am Main
Construction time:	15 months (shell construction)
BRI:	376,000 m <sup>3</sup>
Floors:	4
Architect:	Kadawittfeldarchitektur (draft) / Dietz Joppien Architekten AG (execution)
Client:	Groß & Partner Grundstücksentwicklungsgesellschaft mbH

Since the first sod was turned and the construction work was started on 3 May 2019, work has pressed forward at full speed. The excavation pits of the individual buildings have now been largely completed; the areas of the former racecourse have been filled with excavated material and thus form the foundation for the sports and training grounds that will be built there.

The foundation and shell work for the basement floors is in full swing, and the construction site is all set for the next major milestone.

On 26 September 2019, the foundation stone for the future boulevard will be laid as part of the 43rd ordinary DFB general assembly.

The project team is looking forward to welcoming Dr. Angela Merkel, Dr. Reinhard Rauball, Dr. Rainer Koch, Dr. Friedrich Curtius, Dr. Stephan Osnabrügge, Joachim Löw, Martina Voss-Tecklenburg, Oliver Bierhoff, Peter Feldmann, Volker Bouffier, Peter Matteo as well as Gerhard Wittfeld, who will carry out the festive ceremony of laying the foundation stone.
